“The knowledge and experience this gave me was incredible and before the end of my first year, I was quoting for and successfully winning work.”

- Curtis Young, BA (Hons) Photography

Fashion, Theatrical and Media Hair & Makeup

BA (Hons) Top Up

Master the backstage. Building on your core professional skills, you'll create your own identity, choose your personal specialism and hone your craft as you prepare to enter the fast-paced media makeup industry.

Film & Screen Media

Foundation Degree & BA (Hons) Top Up

This practitioner-focused programme covers three contemporary strands of the film and screen industries. Through traditional filmmaking, motion design and emerging technologies, this course offers new exciting approaches to production career pathways.

Graphic Design & Illustration

Foundation Degree & BA (Hons) Top Up

Transform your creative ideas into digital designs and illustrations. On this course, you'll harness your creative talent, while sharpening your entrepreneurial skills and taking advantage of networking opportunities to develop your vision into a professional business.

Photography

Foundation Degree & BA (Hons) Top Up

Expose yourself to the captivating photographic industry. Study a range of photographic techniques and disciplines such as documentary, fashion, portraiture, fine art and commercial, allowing you to create independent briefs. Benefit from guest talks, practical projects and work-based learning to develop into a versatile photographer.

Screen Audio

Foundation Degree

Create soundtracks for films and computer games by recording sound effects, dialogue and by creating music for screen media. This practical course will ensure you develop a well-rounded understanding of sound as you create audio for the film and games industries and learn the sound design techniques to implement your sounds to create audio projects.

The arts matter and at University Centre Leeds, your art will matter most of all.

Join us and get real experience that can take you to a viable creative career. You'll produce compelling work, learn to captivate an audience and engage with all sorts of like-minded creatives. Our selection of degrees ranges from acting to textiles, meaning we can give you the specialism you crave.

“Since graduating, I've been accepted on to the creative skillset training scheme. I had an interview at Pinewood studios which led to a place on an upcoming Disney film.”

- Amelia Calvert, FD Fashion, Theatrical and Media Hair and Makeup

Acting

Foundation Degree & BA (Hons) Top Up

Acquire the tools to build your actor's toolbox and become successful in the contemporary industry. Make the most of our exciting industry connections, and use fantastic theatre and stage facilities to refine your practice. Get the best insight from practitioners and develop skills like voice work, scriptwriting and stage combat, ready for the creative industry.

Art

Foundation Degree & BA (Hons) Top Up

Whether you're a painter, sculptor, video, sound or installation artist, you'll harness every part of your creative ability and put them to real use, learning how to use those skills in a professional environment.

You will refine your practice while learning marketing and promotional skills to support your professional development.

Animation*

Foundation Degree

Bring your creations to life with this exciting foundation degree. You will study both traditional and digital methods to produce animation for film, TV, computer games, screen media and interactive applications - catapulting your creative career to success.

Beauty Promotion and Communication*

Foundation Degree

Forecast your future and take your first steps into the business of beauty with our FD Beauty Communication and Promotion course. This creative course focuses on developing specialist skills demanded by the fast-paced and exciting global beauty industry to identify fashion and beauty trends, create visual content and promote ideas to a consumer audience.

Concept Art

Foundation Degree

Let your imagination run wild. If you have a flair for creating characters, creatures and environments, this programme will take your career to the next level. Learn to visualise the ideas that modellers, animators and VFX teams will bring to life in computer games, films, comics and animations.
